## Dancers on the Cliff

October 14th 2:30afternoon , Female Bouldering semi-final started on time. Bouldering is not only the battle between the forces, but also the skill competition between each spider man. Very little equipment, the different difficulty of the track, tests female rock climbers from all over the world. The ace gathered on the field, for each athlete, the first is the test of the psychological quality. However, the girls did not retreat, just kept climbing, and reflected their brave side.

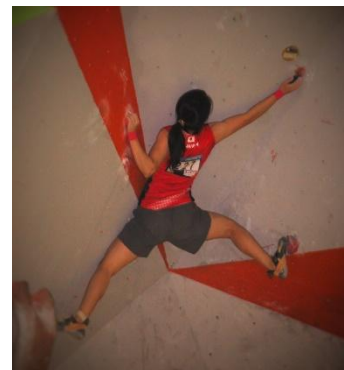

The track is a little difficult, a lot of players can not grasp the strength. Limited by body or skills, there is no way to touch the higher level of the stone for them. It is a pity the audience felt that many players fall heavily accidentally at the last moment, when they close to the top.

However all the athletes did not give up easily. They tried again and again, constantly adjusted their strategy. No matter how many times they have tried not to be discouraged, no matter how much it hurt, they never complained, and their companions tried their best to cheer them on at the same time. There is a strength, called persistence; there is a kind of

success, called to try. Regardless of the results, regardless of whether or not the highest point, each of the girls are the most outstanding, are the most worthy of respect since they are the most strong girls in their teams, the most beautiful dancers on the rock.

In today's game, the French team played well and won the championship. All girls are the lotus flowers open

on the cliff, let's look forward to their better perform!

### **Advance Bravely, Show Yourself**

Oct.14th 2016 is the third day of the First University Championships. This is a rainy day. But When the weather get better, We can see the elegant demeanour of these “spider man”. The stunners were gotten a crash of applause.

At 2:30 p.m. On 14<sup>th</sup>, Men/Women Bouldering semifinals was held indoor. Athletes warmed up to prepare for the competitions. The spectators cheered for these athletes. The volunteers who maintained orders so that the atmosphere of the competition is full of passion but never out of control.

The men player tried to climbing to the top constantly and athletes showed stunners often. Because of the difficulties of field, many players lost the grades. The cheers and applause from the crowded of spectators make athletes cheered up again and again. Never give up, climbing to the top.

A athlete Niu Di from China climbing to the top for times. Spectators all were proud of her and bursted of applause for her splendid performance.

In Japanese team,It impressed me most is a girl with a short stature named Yamashita Makoto. When the reporter interviewed her ,I was deeply moved by the positive attitude. Even though her states have no advantage to these athletes from Europe and America,she still persists in climbing and enjoys every game. Finally,she reached the final competiton.

The competiton finished at 4:40 p.m..Climbing walls were witnessed that athletes everytime advance. In the competition no matter they get the champions or not, we all should applause for the spirit of brave athletes.

### The Party

It was Oct 14<sup>th</sup>, 2016 and the evening party was about to begin when the athletes arrived in succession. The hosts from home and abroad came onto the stage to welcome all our athletes and greet each other, motioning the evening party to start.

The first two programs were **Zhan Gu Zheng Zheng** which meant the war drum was beating and a dance **The Flower** produced by Donghua University student art troupe, both of which made an deep impression by its passionate drumming and graceful dance. What followed next was an

ensemble of Chinese traditional instruments called **War Horses were Galloping** and an ensemble of Guzheng, a 21-or-25-stringed plucked instrument, called **Su He Gu Li**. They fully demonstrated Chinese features and art and culture inside to our foreign

friends.

The female athletes had both morbidezza and vigorousness. The solo dance named *Azalea*, the folk song named *Roll Bead Curtain* and the dance named *Bi Bo Li Ying* showed both passion and tenderness, which carried the audience away.

Although it was a kind of competition, exchange was also one of the aims. It was very precious to gain deep friendship during the process of competition. The chorus *ROCK AROUND THE CLOCK* signaled the party was coming to an end.

In the end, the entire performers from both home and abroad had a tutti of *Long Live the Friendship* based on Donghua University chorus. We sincerely hoped that our friendship could live long just as the song.

### Female Bouldering Semi-Final

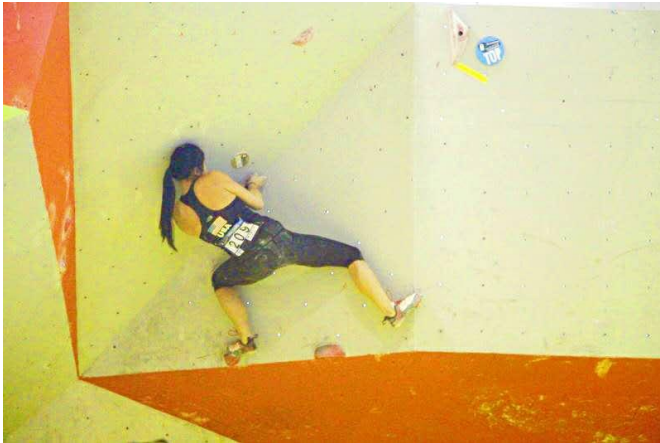

#### -----Perseverance Deserves Success

From 14:30 to 16:30 of Oct. 14, male/female bouldering qualification is carried out on the 2<sup>nd</sup> floor of the gym. It is a great challenge between the masters as well as their past self and present self and during which the competitors try again and again after numerous dropping down, which fully demonstrate the Olympic spirit.

A Japanese female competitor Makoto Yamashita turns up without much expectation, however she shocks all the audience when challenging the 4<sup>th</sup> line. It's unimaginable for a 150cm' girl to challenge a 2 meters' leap without extra help. She keeps on trying for 7 or 8 times. And her every restart seems to be a race with herself and inspires others. Fortunately, she is promoted.

A USA female competitor succeeds in the first lines but is trapped by the 4<sup>th</sup> line. Success never favors her in the first 3 minutes. Without stamina, she tries once again and mounts to the top in the last few seconds. Her perseverance helps her surpass herself and win cheers.

A Chinese female competitor NIU Di, who comes from Xinjiang, has just finished female lead semi-final and female bouldering semi-final. Although she is out of energy, she succeeds in reaching the top of the 1<sup>st</sup> and the 4<sup>st</sup> line, creating much surprise for the audience.

All the success comes from perseverance, which is interpreted by the competitors. Maybe you are not the best one, but you deserve the cheers and applause for challenging the masters and yourself.

### **Male Bouldering Semi-Final**

October 14, 2016, 2:30 afternoon, the Male bouldering started on the two floor of the gymnasium. The athletes entered in turn, and the audience could not wait to see their performance.

The order of this game was carried out in accordance with

the reverse results of the qualification. Race area was divided into four tracks, each track's top should be reached within 4 minutes. Although the difficulties of the routes were different, but each athletes' enthusiasm for the conquest of difficulties was almost the same. Each athlete was very careful to plan their own line before the game. Some athletes climbed on the rock with one step, and then completed the race in one vigorous effort, some would be a little careless, fell from the sky, but no one gave up. Even in the countdown to the last few seconds, they would continue to strive, everyone tried their best to fight for each step. At the same time, in order to ease the athletes' nervousness, music was played, sometimes passionate, sometimes soothing.

Accompanied by music, the game entered the second half. More and more audience came to see the competition, and they could not move their eyes off from the athletes. In the field, there was not only the chasing of the position, but also a lot of moving moments: the excitement of touching the top,

applause given by audience to the athletes, encouragement from players, more important is that no matter how many times they would fall, they could stand up again.

The semi-final was fantastic like a visual feast. Congratulations to Japanese players won the championship. Wish them a more exciting game later.

### **The Ballet**

In October 15, 2016, the highly anticipated Female Lead Final started at the Songjiang campus of Donghua University. The lead distinguishes the level of the players' performance with difficulty of climbing route, The result of the competition is

determined to the rock's height the athletes reach at a specified time.

The cliff is generally 15 meters high, and the line is set according to the level of the contestants. Usually the roof type is more difficult.

On the climbing wall, the competitors are exhibiting their perfect posture, raising the arms, heaving the feet and climbing up, like dancers, as cheers and applause embrace them.

The champion is between Julia and Minseon. At the beginning of the competition, life and death contest takes place immediately. Eventually, Julia edges out and becomes the winner.

Please join us to extend our heartfelt respect to all the sport climbing competitors as well as the winner Julia.
